Policy Document

Research Innovation and Entrepreneurship Development Cell

Objective of the Cell is to monitor and administer Research programs for faculty and students and encourage them to have rational approach in their academic activities. The cell also focuses on research activities by providing the necessary infrastructural set up to faculty and students at large including reputed journals and encyclopaedia in the library, well equipped computer lab etc.

The Research Cell encourages students from various disciplines to participate, promoting interdisciplinary collaboration and cross-pollination of ideas.

Through the Research Colloquium, students gain exposure to different research methodologies and emerging trends, while also developing their presentation and communication skills.

In conclusion, the establishment of the Research Cell reflects the institution's commitment to promoting research, innovation, and development. It strives to create a vibrant research ecosystem that nurtures interdisciplinary collaborations, supports ethical research practices, and empowers individuals to contribute meaningfully to their respective fields. Through its range of resources, grants, and initiatives, the Research Cell endeavours to cultivate a culture of research excellence, fostering a spirit of intellectual curiosity and academic exploration among the college community.

Vision

To create a favourable research environment for developing and strengthening the research ecosystem within the college, in alignment with the guidelines set forth by the NCISM UG-MESAR 2024

Mission

- To establish an environment that cultivates enhanced research productivity.
- To encourage collaboration between college faculty and researchers from other industries, government organizations, NGOs and other agencies at the local, national, and international levels.

Objectives of Research Cell

- To create and promote a culture of research among the faculty and staff
- To organize various workshops/ seminars/ trainings related to promotion of research
- To enhance the research output of the institute by research paper publication in referred journals and reputed conferences
- To publish research material in appropriate media and to make available such published information to the end users.
- To keep track and record of publications made by the faculty
- To publish an ISSN/referred research journal of the college on annual basis.
- To assist institutions in improving teaching learning environment with the help of Action Research
